

SSI + GovPilot

SSI's proven ERP platform combined with GovPilot's modern, cloud-based licensing and permitting tools gives you a more complete solution—without forcing departments into disconnected systems.

What You Can Do with GovPilot + SSI

Run smarter operations

- Manage permitting, licensing, complaints, and inspections in one modern platform
- Support Building, Zoning, Health, Fire, and Public Works with shared, GIS-centric data
- Eliminate duplicate entries and reduce manual work across departments

Serve citizens better

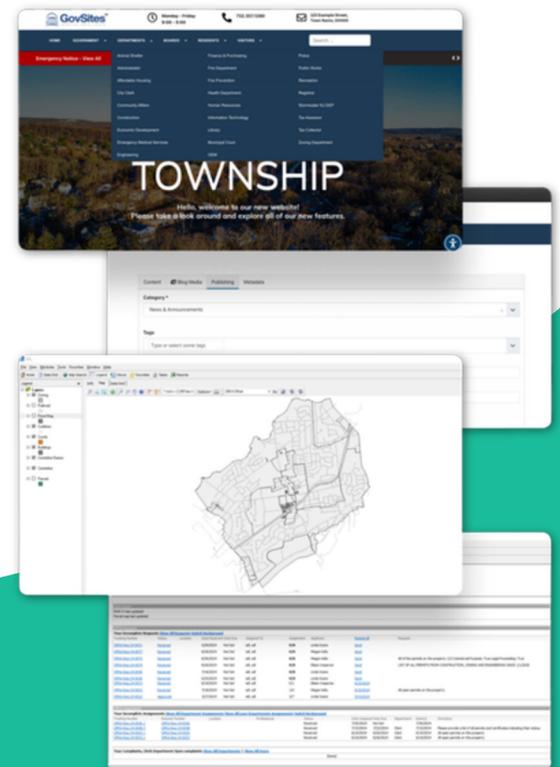

- Offer a 24/7 digital front door for applications, requests, and status tracking
- Enable mobile access for residents and field staff alike
- Reduce in-person visits and phone calls

Work from anywhere

- Native mobile inspection tools with real-time sync
- Cloud-based access with enterprise-grade security and reliability
- Scalable technology that grows with your community

Why Choose GovPilot + SSI?

- Decades of public sector experience
- Trusted nationwide, serving hundreds of agencies and millions of residents
- Shared values around customer service, support, and long-term partnerships
- Integration, including planned direct API connections between GovPilot and SSI's VIP software
